

**INNOVATION IN
WORKING ENVIRONMENTS**

Kios®

Benching System

Kios offers a design with great flexibility to adapt highly functional and independent workstations. This line allows a direct interaction where a continuous collaboration is required.

Its clean structure facilitates freedom of movement thanks to its open bases. These qualities are highlighted with a tray system below the worksurface to hide and distribute power and data wiring.

Its multi-functional beam allows the placement of dividing screens for more privacy. Also, complementary items such as strategically located cabinets and shelves can be added.

Kios can be customized according to your corporate or brand identity allowing you to bring your personal touch.

Height Adjustable Tables

Ergonomy and design at its finest, interested in providing a solution to a high demand of furniture that adapts to the user's needs Tremain has partnered with a leading supplier of adjustable height components to engineer a premium line of tables that are part of Cali.

Cali reflects a modern and sleek design that can complement any existing or new collaboration area.

Cali offers Flip top tables as well as adjustable height and mobile tables to take your workspace to a new level.

Monolithic Panel System

A simple paneling system with great versatility for applications in all spaces, from operative work stations to private offices with floor to ceiling partitions.

With either monolithic or segmented panels, this line integrates technological resources prepared for present or future needs in connectivity of data, voice or power. This prevents any additional or external wiring.

Monolithic Panel System

This line is the upgraded and updated version of our monolithic panel system.

Among its outstanding features, you can find the integration of a metal frame, floor to ceiling design up to 110 inches, sliding doors, power at work surface height and a renewed storage system to complement its contemporary design.

High Pressure Laminate Casegoods

There is no office complete without a reliable and practical storage solution.

Lance has the perfect answer to fulfill any file and storage necessity. It fits great with any of your projects with a uniform and functional style.

Segmented Panel System

Thanks to its multiple alternatives in shapes and sizes, this line offers endless options for you. Bring your personal touch to each space of your organization and customize it with the look and design that best suits your needs.

Conservative or modern style, Matis allows you to arrange workstations at 90° or 120° with storage units strategically located to offer greater functionality. Its 3D growth alternative feature enhances space use and budget efficiency.

Its very own characteristics allow the best use of vertical spaces, even creating an office inside others.

Matis is your solution to create operative and collaborative areas, or floor to ceiling offices; as well as private areas such as boardrooms or training centers.

Free Standing Desking System

For organizations with an innovative vision, Team has been designed under the concept of collaboration in open or private spaces.

We enhance the concept of workstations with an unlimited modular system that allows each user to define its dimension and configuration: linear, square and 120 degrees. It can also be organized into unusual distributions.

Workstations, multipurpose spaces and conference rooms are some of the collaborative projects that can be created with Team.

Its versatility allows you to add accessories such as light walls, or divisions with different finishes and sizes.

Team is unlimited creativity and freedom for your projects.

INNOVATION IN WORKING ENVIRONMENTS

Tremain, which was founded in 1997, is an international Company based in Monterrey, México that specializes in providing design and solutions in working environments.
